

SUMMARY

As a student pursuing a Certificate of Advanced Technician (BTS) at BTS ABDERRAHMAN IBN GHAZALA, I am deeply passionate about the field of web and software development, particularly focusing on back-end development and cybersecurity. My keen interest in advancing in this domain is reflected in my active engagement with projects and coursework in these areas

EDUCATION

Abderrahmane Ben Ghazala (P-TECH)

2022 – Present

Web development career, in progress.

Ibnou Mandour high school

2019 – 2022

Science electrical technologies baccalaureate

SKILLS

- **Back-end:** Java, Spring boot, PostgreSQL, Golang, Git
- **Front-end:** HTML, CSS, JavaScript, TypeScript
- **Tools:** Docker, Postman, Linux

CERTIFICATIONS

- [Go - The Complete Guide \(Udemy\)](#)
- [Spring Boot For Beginners \(Amigoscode\)](#)
- [PHP and MySQL: the ULTIMATE training \(Udemy\)](#)
- [Cyber security Fundamentals \(IBM\)](#)

LANGUAGES

- Arabic - Native
- English - professional proficiency
- French - Intermediate

PROFESSIONAL EXPERIENCE

Web Developer

IBM - September 2023 (1 month) [Github](#)

- My initial real-world project involved creating a small shop website with a home shopping cart, integrating Angular, Node.js, MySQL and Stripe for payments. It was a challenging but rewarding experience that honed my web development skills.

PROJECTS

Employee Manager Restful API - [Github](#)

- I was creating a comprehensive RESTful CRUD API, which I accomplished by using Java Spring Boot, JPA, and PostgreSQL. This venture deepened my understanding of backend development, database management, and the intricacies of web services.

Java chat application - [Github](#)

- This project significantly contributed to my growth and understanding of Java's Stream Input/Output and Graphical User Interface (GUI) interfaces.

Event Booking RESTful API- [Github](#)

- This project was a pivotal learning experience where I delved into building REST APIs using Golang and the Gin framework, focusing on authentication with JWT tokens. This new knowledge has enriched my understanding of back-end development and security practices

INTERESTS

- Video games
- Cyber security
